absolute caricature th century regency britain clearly written produced american bbc much better ironically say american strong anglophile gratuitous sex season one luckily waned season two season two least interesting dramatic arc though still struggle find true dramatic benefit revealing lady whistledown end season dont understand actual british actor somehow sound like putting accent watched curiosity clearly word mouth interest

although love period drama english chinese literally could like main lead series plot also underwhelming say enjoy show enjoyed supporting cast much adored costume lovely voice acting julie andrew cast excellent job music wonderful said simply could bring like daphne simon prior part daphne sexploits husband guilttripping child absolutely mortified act alone rubbish spewed far much sex show without much substance daphne character grow simpleminded selfish wanting marry affluent husband love claim hah bear child simon better vengeful manchild make vow ultimately keep yet praised sold tv producer writer esteemed bachelorbachelorette though setting carried austenesque feel left wanting huge gap feel never fulfilled subsequent season eloises personality seemed liking beginning seemed like would redeem show actress came across rather annoying really put favourite lady danbury absolute thrill watch honestly reason anyone watch showin contrast another reviewer comment may asian one would think would support diverse cast though see past colour actor doubt great role would certainly way little irritating become big deal casting producer feel need hire people background personally would liked retaining white cast reason fact would historically accurate think ridiculous would look historical chinese drama white guy background inclusivity one thing inclusivity
